GAME LICENSE FEES INCREASED AND THE SEASON SHORTENED

The Alberta Government last week released terms of the 1946 Game Act which has been revised and contained numerous changes, including a reduction in bag limits and seasons for ducks, geese, rails and coots.

September 7 to November 21 constitutes the season for hunting of these game birds and applies in that part of the province lying north of the Athabasca river and the north boundary of township 72.

In the other half of the province lying south of this area, the season begins September 14 to November 28. All dates in the Act are inclusive.

Bag limits are listed as follows:

Ducks 5 per day, 25 for the season.

Ducks, 15 per day of which not more than 10 shall be greater waterfowl than mallards, with a season total of 150 provided no person shall have in his possession at any time more than 60 ducks. Rails and coots 25 per day in the aggregate for the season. Hungarian partridge 5 per day and 25 for the season beginning October 14 to November 30. For the same period ring-necked pheasants may be shot to the extent of 4 per day and 24 for the season, except in the Eastern Irrigation District where five a day and 30 for the season may be taken.

Only important changes in the schedule of game fees for resident and non-resident big game hunting are the raising of the resident licence fee from last year's \$3 to \$5 and for resident bird game licenses from \$2 to the present fee of \$2.50.

RAIN AIDS ALL CROPS AND PROSPECTS ARE GOOD FOR BIG YIELD

Following three weeks of dry weather rain set in last Wednesday afternoon and evening and almost an inch of moisture was reported to have fallen all over the district. The rain was very welcome to grain crops, which are all headed out and the added moisture will go a long way towards saving the Didsbury district one of the best crops in history.

To date no material damage has resulted from the elements of nature and the district has been free from hail so far.

Many fields of barley and oats are now almost ready for the binder, and cutting should commence on some fields before the end of the week.

Haying has been completed on most farms in the district, and although the early spring season was dry, the stand was good and most farms will have a good supply of hay this winter for stock.

Don't forget the William Falk Auction Sale in Didsbury on Saturday, August 17th.

Alberta Farmers' Union Locals Are in Favor of Strike Action

At the meeting of the Alberta Farmers' Union held at the Lone Pine hall on August 5, a great deal of enthusiasm was shown discussing various matters pertaining to a farmers' strike.

It was thought that the first consideration was a 100 per cent membership, and with everything else organized, the men felt they should have a union of their own to up hold their rights.

A strike vote was taken by the Lone Pine Local with 99 per cent in favor of action.

J.C. McCulloch reports that the Lone Pine Local now has a membership of 1,000. Members are asked to get behind the AFU and join the local immediately.

On Saturday, August 10th, the Rugby AFU Local conducted its strike vote, with the result that 97

The Rosebud Health District Endorses Pasteurization of Milk

At a recent meeting of the Board of Directors of the Rosebud Health District a letter of congratulation was sent to Mr. Tom Morris, proprietor of the Didsbury Dairy, with regard to supplying the consumers of dairy products in Didsbury with pasteurized milk and cream.

The letter of congratulation reads: "The Rosebud Health District has instructed me to express your appreciation to you for the recent installation of a Pasteurizer at your Dairy in Didsbury."

"Every effort is being made by Health Districts to see that immunization of school children is proper. This is another step in this direction, which would assist the public health authorities very much in any epidemic outbreak, namely the pasteurization of milk."

The cheese factory will be closed all day Wednesday in order to take advantage of the services of the Didsbury Jubilee. The factory intends to continue making cheese on Sun. evenings for the balance of the year.

Mrs. William Bruce went to Langdon to visit with her daughter, Mrs. J. B. Richardson.

We are sorry to lose Mrs. Atkins, our mother, but her son, Mr. S. Allen Lewis, and intends to see her grandfather whom she has never seen.

Mrs. William Bruce went to Langdon to visit with her daughter, Mrs. J. B. Richardson.

We are sorry to lose Mrs. Atkins, our mother, but her son, Mr. S. Allen Lewis, and intends to see her grandfather whom she has never seen.

Our prouressiveness in offering "Safe Milk" to the consumer is to be commended.

Wishing you continued success.

JEAN STEVENS, secretary, Rosebud Health District Board.

Special Prize Winners At the Didsbury Fair

Following is a list of winners in the Special Prize Classes at the Didsbury Exhibition held on July 17th:

Rosedale Flour Mills—Best loaf of bread from Rosebud Flour: 1st Mrs. Adam Morash, 2nd Mrs. P. McNeil.

Jenkin's Grocery—Best loaf of bread from "Golden Rule" Flour: 1st Miss Sarah Zook; 2nd Mrs. H. W. Walt.

Glockzin's Cash Grocery—Best loaf of bread from Five Roses Flour: 1st Miss Sarah Zook; 2nd Mrs. Edna Bahr.

Red and White Store—Best loaf of bread made from Purity Flour: 1st Mrs. E.L. Brown; 2nd Miss Sarah Zook.

Halliday's Grocery—Best loaf of bread made from Royal Household Flour: 1st Miss Sarah Zook; 2nd Mrs. P. McNeil.

Ivan Weber—Best General Purpose Team: Ronald Johnston.

Ashead Garage—Most first prizes in heavy agricultural horses: George Gillrie.

T.E. Scott—Best four-horse team: John Kershaw.

Rosedale Garage—Grade dry mare or gelding, 3-year-old: Kenneth Gillrie.

John Kershaw—Most First Prizes in heavy farm Kershaw.

Ashead Garage—Grade dairy heifer, 3-year-old: Wm. Bruce.

The Marquis—Best Fancy Bed Spread: Mrs. J.R. Stevens.

Neponis Cheese Factory—Best one-year-old Dairy Heifer in show: Wm. Bruce.

Banton's Best Apple Pie: Mrs. Walter McCoy.

Payne-Freeman Co.—Most First Prizes in registered dairy cattle: Wm. Bruce.

Royal Bank—Heavy Draft Dry Mare or gelding, 4 years or over: Wm. Parker.

Royal Bank—1946 Dairy Heifer: Wm. Parker.

K.A. Cassidy—Grade Dairy Heifer, 3 years old: Wm. Bruce.

Bulldogs—Hardware—Most First Prizes in domestic science: Miss Sarah Zook.

Crystal Dairy Ltd. Cup for best dairy herd: Harvey Stevens.

Blue Ribbon Special—for half dozen plain tea biscuits baked with Blue Ribbon Baking Powder: 1st Mrs. Wm. Wraggsworth; 2nd Sarah Zook; 3rd Mrs. Huggard; 4th Mrs. Henry C. Brown.

BURNT STICK ROAD TO BE REGULARLY MAINTAINED

According to latest reports the Burnt Stick Lake road, which was completed last week, is now passable and to gain access to the lake motorists will go 1½ miles west from Cranberry School, then ½ mile with wind and west westward to the lake.

Five hundred feet of planking was donated for the building of the 12 culverts necessary to pass over springs and creek beds.

The construction work was undertaken by the members of the Burnt Stick Lake Association who met twice to complete the dam.

A ten-foot dam will provide sufficient water to cover all the swamps and will prevent the lake from freezing to the bottom.

In addition, a ten-foot dam will provide a reservoir to draw an eight-foot water wheel to supply electrical power at the site.

Now that the road has been completed the municipality of Waterloo has agreed to provide the necessary maintenance.

The Rosebud Health District Endorses Pasteurization of Milk

TEN PER CENT INCREASE IN ALTA. WHEAT ACREAGE

In a preliminary Dominion Bureau of Statistics Alberta's wheat acreage for 1946 is placed at 7,500,000 acres. This is 10% greater than in 1945 and the largest since 1940. Oats are down 11%, barley 7%, and summerfallow 2% as compared with the 1945 figures. A 6% increase in rye acreage is indicated but flaxseed acreage is considerably with an estimated 90,000 acres in 1945.

Price Control And Rationing Information

Q.—I will be feeding extra farm help for five or six days this month and would very much like to get the ration book cards to do so. Will they arrive so that I will be able to have the baking done? Will it be possible for me to apply for their rations before the help actually arrives?

A.—Yes, you may apply to your local ration board, either in person or in writing, for extra rations if you will be feeding farm helpers for more than two weeks. You will have to fill in a form giving details as to the number of meals you will be serving, type of work and amount of work. If your labourers plan on staying for more than two weeks, they are expected to bring along their ration books for your use.

Q.—Is it necessary for each ration book holder to appear in person at the distributing centre for his ration book site?

A.—It is not necessary for each ration book holder to personally appear for their ration book. One person may obtain ration books for several people, as long as the owner of each book fills in the green BB19 card which is in ration book five. Cards from books of persons under 16 years of age should be signed by a parent or guardian.

Q.—Am I allowed to take ration food with me when I visit friends in the United States?

A.—Canadian visitors to the U.S. are allowed to take rations up to the equivalent of the value of five dollars. Anything over that amount requires an export permit. A permit must also be obtained if you want to take more than five pounds of sugar to your American friends.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

GEMS OF THOUGHT

FINITY OF PURPOSE

The secret of success is constancy to purpose.—Dostoevski.

Every man who observes vigilantly and resolves steadfastly grows unconsciously into genius.—Bulwer.

When you are so devoted to doing what is right that you press straight on to it and disregard what men say about you, there is the triumph of moral courage.—Phillips Brooks.

The soaping bends to the breeze, while the sturdy oak, with form and inclination fixed, breathes the tornado.—Mary Baker Eddy.

Everything is good which takes away one plaything and delusion more, and drives us home to add one stroke of faithful work.—Emerson.

It is not enough to be busy; so are the ants. The question is: What are we busy about?—Thoreau.

To Suit Conditions

India Will Soon Be Making Her Own Airplanes

India will have a completely self-sufficient aircraft industry within 20 years, according to a decision made by the Indian government. Construction will start shortly at Bangalore, where a repair and maintenance factory is already in existence.

Planes will be turned out both for the Royal Indian Air Force and for the needs of civilian aviation. It is anticipated that the first aircraft will come off the line of the factory in less than 18 months.

The decision is based on the recommendation of the United Kingdom Aircraft Mission which was invited to India in March, 1946. It has been decided that a special airplane should be manufactured to suit Indian conditions.

Pleasant Trip

For Those Who Decide To Travel Over Alaska Highway

For some reason or other, heat waves in the summer time are something that most people have never travelled the Alaska highway delight in knocking it. They pose as experts announcing that the road is no good, that the scenery is tiresome that it's too far to Alaska to go by road.

The praise of persons who have travelled the highway are as voices crying in the wilderness. Nobody in authority pays any attention to them. As the highway is gradually opened to civilian travel, however, more and more people will join in the chorus of praise. Once over the road it is impossible not to join that chorus.—Vancouver News-Herald.

Astonished Clerk

Woman Customer Had Half Million Dollars In Her Purse

The New York Post says Walter Winchell relays the story of an aging woman from New York who was posing as yet another perfect string of pearls. The clerk at Cartier's "mistook her unprepossessing appearance for poverty and shewed her the lowest-priced strings." But she persisted until she saw "just what she was looking for" and the price, and the clerk finally, "as \$500,000," will take it. And the woman, opening her purse, and extracting a half-million dollars in cash! The clerk keeled over with a heart attack."

WILL HAVE VITAMINS

Ten thousand vitamin tablets will be distributed among school students in Delhi, India, to combat growing malnutrition. One tablet at a time, the tablets will be given to each student suffering from malnutrition, and the scheme will be extended when more consignments of tablets are received.

Sent Work Abroad

U.K. Ships Said Sent To Belgium For Repairs

LONDON.—British shipowners are sending their vessels to Belgian shipyards for repairs because the war work put in by Belgian shipyard workers gives quicker release of the ships than could be hoped for in Britain. Col. James Hutchison, Conservative, told the House of Commons.

Col. Hutchison, a businessman, reported to the Commons in Glasgow, Britain's greatest shipbuilding centre. He wanted to know how foreign exchange was made available for such transactions.

Hugh Dalton, Chancellor of the Exchequer, said that the foreign aid grant must be repaired abroad and exchange was provided on production of required evidence that this was necessary in a given case.

REAL MEMORIAL

The little town of Goderich, county town of Huron, Ontario, plans to build a memorial recreational hall. It will be 253 feet long by 182 wide, with an imposing entrance, a fine memorial lobby, and with provision for an artificial ice rink, curling rink, badminton courts, men's and ladies' lounges, kitchen and portable floor which can be used for dancing, roller skating and public meetings. Lethbridge Herald.

The sandal is the most ancient type of footwear. 2632

conceivable that such a policy could advance the wishes of the organized farm bodies? Obviously not."

There must be flexibility in the marketing of wheat to cover variations in quantity and quality of production, not alone in Canada but in all other wheat producing, consuming and exporting countries. Wheat must also be sold at prices to compete with other food stuffs that are available in world markets.

This fluctuation in prices should keep pace with the price of goods that farmers have to buy. You know yourself, that you are now paying more for implements, clothing, lumber and other things. Why, then, should you be held down to a fixed price for your wheat. Such a policy is neither fair nor reasonable.

Any promise of a future reward for your present sacrifices cannot possibly be fulfilled, although those in favour of the wheat agreement would have you believe that it can.

No wheat importing country will, for long, pay more for Canadian wheat (quality considered) than the prices at which other wheat exporting countries are willing to sell their wheat. Would you, if you were an importer?

During the crop year 1945-1946 Prairie Farmers lost about 150 million dollars because of the present "controlled" price for wheat. Do you ever expect to recover your share of that loss?

The truth is that if this proposed agreement is signed the "control" of your wheat will continue; and you will possibly face still further losses. And to whom will you look to make up for these losses?—Canada?—Britain?

The agreement will mean monopoly control of grain production. You, as farmers, will be told what you must grow and how many acres you may seed. And you will have no say as to how, when, where and at what price your crop will be sold. The Government will be both buyer and seller. You will have no say in the matter. How will you like that?

You have been guaranteed a floor price of \$1.00 per bushel for four years, but not necessarily for your whole crop. The Government floor price announcement states specifically that delivery control may be necessary.

Commenting on the dangers of monopoly, the "Winnipeg Free Press" on June 26 said:

"No mention has been made yet of another ill-consequence of bilateral trade in wheat. The open market would disappear in favour of a state monopoly. There are differences of view about the open market, but nobody of consequence is advocating a state monopoly as the alternative."

Over and above all other objections, we oppose such change in national policy as a wheat agreement implies. The Government has no mandate from the people to embark upon a program of State Socialism.

THE QUESTION MUST BE ANSWERED ONE WAY OR THE OTHER:

Does Canada intend to permit the continuation of free competitive enterprise in wheat or anything else?—or—does Canada intend officially to embark upon a policy of State Socialism?

If free competitive enterprise is to continue then Canada cannot afford to make bilateral trade agreements.

If State Socialism is the objective of the sponsors of the bilateral wheat agreement they should come right out frankly and say so, and not lead Canadians to believe that their liberty and their freedom of action are not threatened—when the very opposite is the case.

SAVE TIME...SAVE FUEL...SAVE FOOD!

Production And Distribution Of The Essentials Of Life Alone Can Solve Problem Of Scarcity

(By Lewis W. Douglas in an address at a dinner in New York) OFTEN, by contrasting the times in which we live with those that have gone before, men can obtain a perspective—a view of the course they have been pursuing—and of the sum total of the accumulated changes that have occurred. Contrast frequently provides a measure by which conduct may be reassessed and old views once firmly held may be retasted and adjusted.

"All our hopes of the future," said

Frederick Harrison, "depend on a sound understanding of the past." Therefore, let me ask you to turn your memories backwards to the condition and the estate of Europe as it was only 25 years ago at the close of World War I.

But, although she was about to start on a path leading to moral corruption and disintegration, sat at the council table of the victors—a power in the Mediterranean.

Belgium—partly ravished by the government intact and an environment shaken, but unchanged.

Holland—and the Dutch Empire remained unscathed, with the lines to her overseas possessions unstretched and unfrazed.

France—tired—with multitude of tired heads and young men lying beneath their crosses—about to experience a monetary inflation which was destined further to reduce her middle class and to shrivel the moral strength of her people—emerged from the conflict as the greatest military power in Europe.

Russia was caught in the throes of a revolution that was to reduce her to impotence for more than a decade.

Germany—if defeated on the field of battle—was indeed undismayed, undeterred—the last vestige of her productive facilities fully preserved.

If England was exhausted—if the blood of the best of her younger generations had drenched the soil of France and Europe from Mons to the Dardanelles—she remained the greatest creditor nation on earth—the greatest exporter—she was mistress of the seas.

Thus, though cracked and shoving signs of wear, the ramparts of the Western world remained intact.

And we—with superficial justification—laughed at the schemes of logic—lapsed back and languished in our continental isolation, confident that the pillars of western civilization in Europe—though weakened—were still strong—assured that the bastions of our continental defences remained intact, sealed and impregnable, defended before any hostile force could reach out across the seas to molest our tranquil lives.

Now these pillars have been razed to the ground.

Now these ramparts have been demolished.

Now Europe lies in ruins.

Throughout that vast stretch of the Continent—from the Urals to the Pillars of Hercules—I venture the assertion that there has been a visitation of desolation, destruction, and despair—economic, financial, political and moral—unparalleled in the long and tedious history of the human race.

Everywhere—in varying degrees—in France, in Holland, in Belgium in Switzerland, in Italy, in the Balkans, and in Russia—there has been a general destruction of productive facilities and transportation has been necessarily accompanied by shocking deficiencies in food and coal—the bare necessities of human life. Sources of supply of the essentials of living—have been cut off and not extirpated. Production languishes; populations face starvation.

Financially, throughout most Europe each national monetary and fiscal system—differing in degree only—is uneasy, quivering on the shifting sands of accumulated debts and expenses.

Politically, almost everywhere government's have been exterminated by the evil forces of Hitler's occupying armies. And the tidal wave that swept over Europe after those evil forces were driven out has not yet, in many cases, subsided enough to allow enough to reveal the form and structure of legitimate political institutions. Thus, the margins on which we formerly relied—the bastions which twice within the short span of a quarter of a century protected us and provided us with that amount of precious time in which we successfully neutralized our strength have been destroyed.

The problems created by the holocaust of war are incalculable both in their magnitude and in their significance.

I submit the question that we will

find no adequate answer unless we deal first with the central point of the European economy—Germany.

And I suggest that only through a loosely associated federation under a central government, with limited, major powers with the Ruhr and Rhineland separated from her politically can we avoid the impossible administrative task of controlling her production. Only under this general sort of a reconstructed system can Germany's peace-time productive energies be safely released and en-

couraged for the benefit of Europe as a whole.

I venture the suggestion that without some such rebirth in our ideals there will be no return to tranquil living in its own interests unless we extend that reasonable amount of support which will give her the opportunity to heal the wounds caused by war and a humiliating occupation.

The development of new plastics which possess combined properties hitherto unknown in synthetic materials was revealed here in an interview with Dr. G. R. Rice, plastics technical consultant of Canadian Industries Limited. These plastics, some of which are still not fully developed for commercial use, have the strength of metals and are lighter than steel in weight. They are finding their place in the field of industry alongside such chemical substances as nylon, "Lucite", acrylic resin, polyethylene and other recently born textile creations.

Another new plastic, so light a girl can hold it in her fingers, was discovered by accident. A molding machine in a chemical plant was clogged with a slue of cellulose acetate. Heat was applied to clear it by the pressure of steam. The resulting foamy material issued from the machine.

This foam caught the imagination of the chemists. Many months were spent in developing the carefully controlled process. As a result of their labor another plastic baby was born and christened CCA (cellulose acetate).

A low density core material, CCA's greatest use, because of its amazing lightness, will be in aircraft construction, luggage, surfboards, panels for house-trailers, railway cars, artificial limbs, card tables and shot-lights are other possible uses.

Perhaps the most spectacular of chemistry's newly-born is luminescent "Lucite". Made of the same transparent plastic widely used in aircraft, the new product is made by adding a small amount of acrylic resin with luminescent pigments. After exposure to light it glows at a maximum intensity for several minutes and continues to give off light for the next 10 to 12 hours, then gradually fades to darkness. This pigmented plastic can be activated either by exposure to daylight or ordinary electric lamps.

The uses which this plastic can be put are legion. Highway departments will welcome it for safety line markers and warning signs.

A rough shooting made of the same nylon used in the manufacturing of ladies' sheer hose is expected to be used in the making of such products as wallets, brief cases, handbags and other articles usually made of leather.

So strong is this new material that a strip of it as thick as a page of newspaper will support a grown man.

This nylon sheeting can be produced in various colors and embossed in any desired pattern. Tougher than any other plastic, this high abrasion resistance is extremely durable and is unaffected by the ranges of moisture, insects and mold. It should also prove a highly durable

NEW PLASTICS

Reveal Properties That Have Been Hitherto Unknown

MONTRÉAL—Superman's exploits are probably to have as model chemists continue to draw greater wonders out of their ever-changing bag of tricks.

The development of new plastics which possess combined properties hitherto unknown in synthetic materials was revealed here in an interview with Dr. G. R. Rice, plastics technical consultant of Canadian Industries Limited. These plastics, some of which are still not fully developed for commercial use, have the strength of metals and are lighter than steel in weight.

Another new plastic, so light a girl can hold it in her fingers, was discovered by accident. A molding machine in a chemical plant was clogged with a slue of cellulose acetate. Heat was applied to clear it by the pressure of steam. The resulting foamy material issued from the machine.

A girl's sharp, high heels and her full weight have no effect on this nylon plastic sheeting no thicker than a page of newspaper. This recently developed plastic can be embossed to resemble leather. Uses include wallets, brief cases, ladies' handbags, seat covers and paneling for trains, buses and airplanes.

For the past fourteen years, as head of the valuable government project at Summerland, Dr. Palmer has won increasing favor not only among those closest to him here in the interior but in the field of science devoted to agriculture.

Inestigating in inspiring and directing new investigations and experimental work, he has never slackened in an arduous task. Hence there is the warmest approval for the honor recently paid him. With all the rest of the community, he and his wife, who cheerfully finds time to interest himself in every phase and feature of the whole valley community. He has bent his efforts to every worthy cause and we remember one thing in particular, that is an ideal of the station when, with his friendly and gracious wife, he has done everything to win the goodwill and memory of countless visitors, and the boards of trade of the valley, always concerning themselves about tourism, to increase the Summerland show-place and its superintendent as precious assets.

There is something very pleasant in being able to point to a job well done. In every way, Dr. Palmer seems to have met the tests.—Ex-change.

LIGHT WOOL FABRIC

British research has produced a wool fabric as fine to the touch as georgette. A jumper of the light weave would weigh 1½ to 2 ounces, whereas the average woollen jumper weighs about six ounces.

NAMED AFTER MERCER

Mercerized cotton is named after John Mercer, who discovered ordinary cotton could be made stronger and more lustrous by treating it with

material for seat coverings and panelings on buses, trains and airplanes and for various decorative uses in the home, according to the C.I.L. plastics expert.

Another new plastic, so light a girl can hold it in her fingers, was discovered by accident. A molding machine in a chemical plant was clogged with a slue of cellulose acetate. Heat was applied to clear it by the pressure of steam. The resulting foamy material issued from the machine.

This foam caught the imagination of the chemists. Many months were spent in developing the carefully controlled process. As a result of their labor another plastic baby was born and christened CCA (cellulose acetate).

After exposure to light it glows at a maximum intensity for several minutes and continues to give off light for the next 10 to 12 hours, then gradually fades to darkness. This pigmented plastic can be activated either by exposure to daylight or ordinary electric lamps.

The uses which this plastic can be put are legion. Highway departments will welcome it for safety line markers and warning signs.

A rough shooting made of the same nylon used in the manufacturing of ladies' sheer hose is expected to be used in the making of such products as wallets, brief cases, handbags and other articles usually made of leather.

So strong is this new material that a strip of it as thick as a page of newspaper will support a grown man.

This nylon sheeting can be produced in various colors and embossed in any desired pattern. Tougher than any other plastic, this high abrasion resistance is extremely durable and is unaffected by the ranges of moisture, insects and mold. It should also prove a highly durable

A girl's sharp, high heels and her full weight have no effect on this nylon plastic sheeting no thicker than a page of newspaper. This recently developed plastic can be embossed to resemble leather. Uses include wallets, brief cases, ladies' handbags, seat covers and paneling for trains, buses and airplanes.

For the past fourteen years, as head of the valuable government project at Summerland, Dr. Palmer has won increasing favor not only among those closest to him here in the interior but in the field of science devoted to agriculture.

Inestigating in inspiring and directing new investigations and experimental work, he has never slackened in an arduous task. Hence there is the warmest approval for the honor recently paid him. With all the rest of the community, he and his wife, who cheerfully finds time to interest himself in every phase and feature of the whole valley community. He has bent his efforts to every worthy cause and we remember one thing in particular, that is an ideal of the station when, with his friendly and gracious wife, he has done everything to win the goodwill and memory of countless visitors, and the boards of trade of the valley, always concerning themselves about tourism, to increase the Summerland show-place and its superintendent as precious assets.

There is something very pleasant in being able to point to a job well done. In every way, Dr. Palmer seems to have met the tests.—Ex-change.

LIGHT WOOL FABRIC

British research has produced a wool fabric as fine to the touch as georgette. A jumper of the light weave would weigh 1½ to 2 ounces,

whereas the average woollen jumper weighs about six ounces.

NAMED AFTER MERCER

Mercerized cotton is named after John Mercer, who discovered ordinary cotton could be made stronger and more lustrous by treating it with

material for seat coverings and panelings on buses, trains and airplanes and for various decorative uses in the home, according to the C.I.L. plastics expert.

Another new plastic, so light a girl can hold it in her fingers, was discovered by accident. A molding machine in a chemical plant was clogged with a slue of cellulose acetate. Heat was applied to clear it by the pressure of steam. The resulting foamy material issued from the machine.

This foam caught the imagination of the chemists. Many months were spent in developing the carefully controlled process. As a result of their labor another plastic baby was born and christened CCA (cellulose acetate).

A low density core material, CCA's greatest use, because of its amazing lightness, will be in aircraft construction, luggage, surfboards, panels for house-trailers, railway cars, artificial limbs, card tables and shot-lights are other possible uses.

Perhaps the most spectacular of chemistry's newly-born is luminescent "Lucite". Made of the same transparent plastic widely used in aircraft, the new product is made by adding a small amount of acrylic resin with luminescent pigments. After exposure to light it glows at a maximum intensity for several minutes and continues to give off light for the next 10 to 12 hours, then gradually fades to darkness. This pigmented plastic can be activated either by exposure to daylight or ordinary electric lamps.

Editorial

WATCH FOR IMPERSONATORS

Mr. E.A. Ellsberry, field representative of the Navy League of Canada made his official annual call on business and professional men of Didsbury on Thursday and while he was not quite satisfied with the usual response by Didsbury citizens, he was well pleased in view of the fact that the first of the week, two other gentlemen were canvassing the town, giving citizens the impression that they were connected with the Navy League of Canada.

Mr. Ellsberry pointed out that he is the sole representative of the Navy League of Canada for Southern Alberta, and in future local business men should be on the look out for any other person misrepresenting the cause for which they may be canvassing the town.

Bitter offenders for misrepresentation seem to be those travelling the country selling magazines and periodicals. They often have a line that is convincing but not always legitimate.

In all cases where it is doubtful as to the identity of the canvasser, citizens should demand to see the canvasser's credentials.

There are entirely too many individuals seeking the rounds of Alberta towns seeking donations for various causes or trying to make an easy living off the sucker public. The only way to stamp out this racket is to refuse to donate to anything but legitimate organizations worthy of support.

OLDS GAZETTE IN NEW STYLE

The Olds Gazette, published by Ronny Newsom and Neil Leitherdale came out on August 8th with an all-home print paper with the front page free from ads for the first time in the history of the paper and the new setup is a big improvement over the old-style editions.

The new set-up gives Olds and district a paper which its citizens may well be proud of and The Pioneer wishes to congratulate our fellow publishers on their initiative.

EVANGELICAL CHURCH

SERVICES AT NEW BERGTHAL

Rev. A. J. Grams, Pastor

Sundays:

10:30 a.m.—Morning Worship.

11:30 a.m.—Sunday School.

7:45 p.m.—Closing daily Vacation Bible School program.

Wednesdays, 8 p.m.—Prayer Meeting.

You are welcome to all these you to come and enjoy the evening services.

The Young People's Service will be held at the New Bergthal Mennonite Church on Sunday, August 18th, commencing at 8 p.m. The Program, "Seek and Ye Shall Find" will be presented. Rev. C.G. Neufeld, pastor of the Mennonite Singers will sing and music will also be included in the service. We invite you to come and enjoy the evening services.

LETTERS TO THE EDITOR

Editor, Didsbury Pioneer.

It was with interest I read an article in the other day concerning liquor.

It is said that the hand that rocks the cradle rules the world but it also said it was getting to be a shaky hand.

How true this is, in far too many cases. What is wrong with our women? Why in these days that they will lower themselves in the eyes of others?

I am sure in our grandmother's day such a thing would be unheard of. Now women are given the same rights as men in purchasing liquor. It is a tragedy in these days when there are so many starving people in the world that there is so much grain used up for alcoholic beverages.

No one can drink himself into prosperity, health or real happiness.

Many people say they drink to take away their sorrows, but does it help?

What about when they get over a drinking spell, isn't it much worse then?

Alcohol makes men cheaply happy, destroying their conscience. Alcohol works as a drug so anyone who gets drunk on it can not be held responsible. The lives they may be endangering far more than their own. The ones who are tight seldom get hurt, it is the innocent ones who must suffer.

The breweries are increasing their output by 50 percent or more, and how long will we be?

Think of the ones who will suffer most of all—the small children.

Let me remind you that merely because things are different these days, because "everybody does it," does not make it right.

If you let Christ into your heart, He will cleanse you from all sins and give you a peace and joy that the pleasures of this world can not give you.

God's word says "Do not drink wine or strong drink." Lev. 10:9. Mrs. James M. Hooper.

POLLED HEREFORDS BRING BIG MONEY TO BREEDERS

Polled Herefords are becoming more popular in the west, says D.W. Chittenden, field secretary for the breeders and this year is showing remarkable progress and an extraordinary demand.

From recent records he cites to the Billings Livestock Reporter that in 34 sales since Jan. 1, in 1946, 1,130 bulls were sold.

Polled Herefords sold for an average of \$333 a head. Of this number, 733 were bulls that averaged \$604 and 1,145 females averaged \$488.

Three bulls passed the \$26,000 mark, including Trumodo Domino 647 at \$30,000 and Leekan Tone 700 at \$9,000.

The price paid for Trumodo Domino 647, a calf with a splendid show record, marks a new world record price for a polled Hereford bull.

REDEEMER LUTHERAN

Rev. Albert F. Reiner, Pastor

Every 2nd, 4th and 5th Sunday in the month Service in Didsbury at 10:30 a.m.

Every 3rd Sunday in the month: Service at Westcott at 10:30 a.m.; Service in Didsbury at 2:30 p.m.; Sunday School after all services.

Some of London's grim scars of war - areas where German bombs

WEED CONTROL

By S. Hodgson, Field Supervisor

The Agricultural Service Board and your Field Supervisor asks the cooperation of all the farmers throughout the municipality to weed the roadsides and cleared of weeds this summer.

As we all know, the roads and road allowances throughout the municipality are one of the best sources of scattering weeds on neighboring farms and infesting farms in the spring of the year by the sprouting roots of weeds that have crept from the road allowances ditches across the farm fields adjacent to the roads. This alone each year carries all kinds of weed seeds onto farmers' fields and starts new infestations of weeds that a farmer may not have had before.

It takes only a little of the farmers' time to do the work along the roads. This moving should be done during the summer months before the weeds have gone to seed.

Section 17 of the Noxious Weed Act states that: "Every person who is the owner of any parcel of land, and every person who has any benefit or interest in land, shall prevent any noxious weeds from growing upon such parcel of land, and shall comply with all the provisions of the act for the destruction thereof."

The Noxious Weeds Act and amendments thereto provide that "Every person who occupies or owns land, or who has an interest in land, controlled by any person but also means and includes the land up to the centre line of all contiguous roads and road allowances, highways, streets or lanes or streams, or bodies of water included within the boundaries of the land, or which a person occupying or having the right to occupy or control any lands."

"Owner" means not only the registered owner under the Land Titles Act but extends to and includes every person who has any estate or interest in land or who has any right to be vested with such interest.

It is to every farmer's own benefit that all weeds growing on road allowances throughout the municipality should be cut and prevented from going to seed. It is not only of benefit to the farmer concerned but adds greatly to the appearance of the man's farm and adds to the man's own pride in his own farm. It gives the district concerned a much tidier appearance.

FROM BOMBS TO PLAYGROUNDS

Some of London's grim scars of war - areas where German bombs

bombed whole rows of houses into open-air playgrounds where small children, especially in crowded districts, play safely and happily under the supervision of trained nurses. Some of these areas require a 20-hour week. Teach your youngsters at a charge of 20 cents a day. The children play from early morning until sunset to their hearts' content with swings, seesaws, rocking horses and rag dolls, still not east to get in postwar Britain. Those under two years are given a soft padded chair, which sits upright every day in return for one clothing coupon from their allowance. The daily three meals consist of breakfast (which includes fresh orange juice), a cooked dinner and tea.

WANTED—Housekeeper — Steady employment; one adult and two children. Apply to Alma Shantz, phone 45.

WANTED—Three-roomed house. Apply to M. Everenden, c/o the Builder's Hardware.

WANTED—Chesterfield and chair. Apply to A. Peterson at Cassidy's Lumber Yard.

WANTED—Four-roomed House in east Didsbury. Apply to Mrs. Ada Stevens.

WANTED—Middle aged woman for cooking in saw mill. Small crew. No objection to woman with one child. Write to Irvin Smith, Bergen — Edging boards and slabs for sale at mill.

FOR SALE—Frame House L-shape, 12'x38', double boarded, moveable. Or would trade for car or truck delivery. Apply to P.F. Fair, Elenton.

LOST—One 450x20 Good year tire and rim. South east of Didsbury. Finder phone 614. L. Nichols 11p.

FOR SALE—8 ft. John Deere Binder. Good running order. Apply to Art Gebers, R.R. 2 32-2p.

FOR SALE—John Deere Tractor on steel. Bought new in 1939, in good shape. Apply to Clarence J. Reid, Cremona, Alberta. 32-3p.

FOR SALE—44 Purebred Narragansett Turkeys. 3 months old. Apply to J. A. Dyck, phone 122 11p.

FOUND—750x29 Truck Tire and Rim, south east of Davenport school. Owner may have some by calling at Pioneer office. If

LOST—8-ton Hydraulic Jack between W.C. Ahlstrom's nail and cheese factory. Finder phone 33-21c.

FOR SALE—Used heater and pipes suitable for garage, \$7.00. Used Furnace \$50.00. Shetland Ponies Harness \$10.00. Apply to J. V. Bertsch, phone 36.

FOR SALE—Spray Painting outfit: May 14 g. Englishman, 14" Cleaning Heater, 1 Backfined Heater, 1 Oak Table; 1 C.C.M. Man's Bicycle. Apply to Cecil Malloch, Didsbury.

WANTED—School Ponies, must be quiet. Also Fresh and Springer Dairy Cattle for sale at all times. Apply to Hugh Roberts, phone 107, Didsbury.

FOR SALE—Drop Leaf Kitchen Table; Large Dining Room Table; Heavy Glass Mirror in fancy frame; Electric Heater; Small Stand; Seat Bench; Shovel, rake and hoe; Saw, level and square; Four-tined fork; Three-tined Fork; Metal Floor Mat; Large Bread Knife; Carving Knife; 1-gallon and 6-gallon cans; Tins; Blocks; 1-gallon Stoneware; Vinegar Jars; Galvanized Water Pail; Number of empty honey and syrup pails; Pair of leather slippers, size 8; like new; Plain White Englishware Pitcher; 12-Dozen Earthenware Flower Pots; Jute and Cotton Grain Sacks; All articles offered at cheap prices.

Apply to E.A. Brucker, East Didsbury.

FOR SALE

:- NEWS OF THE DISTRICT :-

NOTES FROM THE EAST

Mr. Eddie Patterson and Mr. H. Campbell returned home recently from a three weeks' vacation at the coast and parts of the States.

Mr. August Anderson of Tacoma Washington, visiting his niece, Mrs. Anne Patterson.

James Schumacher has been ill for some time in the Belcher hospital. We wish Jim a speedy recovery.

Mrs. E. Richardson is visiting with her daughter, Mrs. James McCulloch, and family.

Congratulations are in order for Mr. and Mrs. John Brander (one Ethel Bruce) of Langdon, on the birth of a daughter.

Mr. J. Todd of Sunnyslope was a visitor with Mr. and Mrs. Joe Clarke on Wednesday last.

Mr. Lynn Humphrey and Sharon are spending the week end with their mother, Mrs. B. Wood, and family.

Mr. and Mrs. Stanley Coyne of Alliance visited recently with Mr. and Mrs. Chris Ehret.

Mrs. Stanley Coyne and her brother Dick Ehret were Sunday diners with Mrs. Dowell and Mr. F. Metz.

Mr. Fred Metz was a visitor at the home of Mr. and Mrs. Wm. Lyons on Saturday. Fred said he was greatly surprised to see Mr. Norman Roy, also at the Lyons home. We are pleased to learn that Mr. Roy is well again and back in the district.

BERGEN NEWS NOTES

The Bergen children with the Didsbury Sunday school children are attending Vocational Bible school at Gull Lake.

Mr. and Mrs. Victor Granum are visiting relatives at Bergen and Sundre.

Rev. Dave Broomfield and family will start on Monday for New Westminster, where he has been stationed.

Olaf Haug and wife of Berrymore have been visiting here for a week.

Wesley Haug expects his wife from England in the near future.

We are thankful for nice buying weather for the last week.

Duncan McCuaig has sold his farm to Joe Kynan.

Fred Admussen is trying out his new hay stacker. He can't get hay enough to keep it busy.

Tryon Haug has purchased the C. E. Hall east of the Bergen Store, S.E. of 5-32-5.

Harvey Wideman has fenced a large sheep pasture on N.E. of 5-3-5.

The Edswold school may get a coat of paint this fall.

Rev. D. Eby preceded at the Rev. A. Habermann at Gull Lake.

**LOCAL NEWS ITEMS
FROM HERE & THERE**

Mr. and Mrs. W.C. Hunter of Edmonton visited with Mr. and Mrs. Bruce Parker over the week end.

Mr. and Mrs. Jack Garner received a wire Monday saying that their daughter Grace had arrived in England.

Mr. and Mrs. Havelock Parker moved from Woodstock, Ont. and are the guests of the former's brother and wife, Mr. and Mrs. Bruce Parker.

Mr. and Mrs. A. Brusso attended the Olds Fair on Saturday afternoon.

Mr. and Mrs. Emil Krebs, Mr. and Mrs. Ace Eader and Mrs. Annie Krebs, accompanied by Mr. and Mrs. Bert Havens of Anchorage, Mon. motored to Brightview to visit with their relatives, Mr. and Mrs. J.O. Reimer over the week end.

DIDSBUCK HOSPITAL BIRTHS

Born, to Mr. and Mrs. John Reese on August 9, a daughter.

Born, to Mr. and Mrs. F. Stevenson on August 6, a son.

You can talk to one man. Want ads talk to thousands.

VIGO TORP OF THE
BURNSIDE DISTRICT
FIRST TO CUT WHEAT

Vigo Torp is the first lucky individual in this area to get his wheat in. He is stoked, so to speak, of which he visited his neighbor Ivan Weber on Sunday.

Louis Persinger returned to Calgary last week for further medical treatment.

Mrs. A. Jenkins paid a visit to the home farm last Wednesday.

Several old and new war veterans of the east district attended the Memorial Service held at the Butt on Sunday. Among them was Lloyd Clegg, who has been away from home on the way in, managed to get there and later visited his wife and infant daughter at the Didsbury hospital.

There will be dance at the Lone Pine Hall on Friday, August 23. No excuses accepted for non attendance because the roads are good, the weather fine, and the food and music excellent.

Shirley Cullen, nurse-in-training at Calgary General hospital, returned to her duties on Sunday after three weeks vacation at Bandit and at home.

Mrs. Otto Bittner has received word from her brother ex-Squadron Leader Lewis Sprags that his wife and two sons have arrived in Canada from Scotland and have joined him in Red Deer. Lewis is a pilot in the R.A.F. He is presently employed as assistant manager at Woolworth's store in that city.

Mrs. Mackay Sr. of Arrowhead is spending the week end with her sister, Mrs. Joe Clarke. Mr. Mackay is at present a patient in the Holy Cross hospital suffering from a heart complaint.

Laura McCulloch of Cartstairs visited last week with her cousins, Norma McCulloch and Vivian Ahern.

Mrs. Emily Richardson is spending two weeks at the home of her daughter, Mrs. James McCulloch.

Mrs. Walsh and daughter returned to their home in Calgary after a two week's holiday spent at the Alfie Thompson farm.

Mr. and Mrs. Howard Charlton visited the Weber farm on Sunday. They were accompanied on their return home by Dean Persinger who will spend a couple of weeks with them.

The "Blinder" dance due on August 7, was postponed owing to the weather conditions which proved a great disappointment to many, this being an annual event looked forward to by many couples in the neighborhood. However, the new date will be announced as soon as possible.

Miss Florence Cullen has accepted a position in Berenthal school, teaching Grades I to IV.

Jessie and Lola McCulloch visited the Brander farm for a few days last week.

All roads lead to Didsbury on Wednesday, August 14th. Dig out the old duds, moth balls and all, and have a free day in the old pioneer town. Don't mean our local shopping style.

Mr. and Mrs. Tom Noble spent a few days at the latter's old home visiting with her brother.

WESTERDALE NOTES

A large crowd of baseball fans took in the game at Harmattan last Sunday afternoon when Harmattan and Westerdale played their second play-off game for the Western title. The game was closely contested throughout with Harmattan scoring in the final inning to win by a 5-4 count. The teams are now even in the series having won one game each. Tie breaker will be played in Olds on Sunday afternoon.

Mr. Tommy Dawson of Calgary spent last week at the home of Mr. and Mrs. Ralph Jackson.

Mr. and Mrs. Ted Bolton and family were overnight visitors at the home of Mr. and Mrs. Bert Johnson of Harmattan last Sunday.

Mr. and Mrs. Rex Bussard of Turner Valley were Sunday visitors at the home of Mr. and Mrs. Ralph Jackson.

You can talk to one man. Want ads talk to thousands.

NOTES FROM THE WEST

Instead of the usual regular meeting, the Elton Willing Workers held picnic at Campbell's crossing last Friday. The next meeting will be at the home of Mrs. C. Rodke, on Wednesday, September 11th.

Mrs. O. Krebs visited at Wetaskiwin last week.

Mr. and Mrs. A.L. Hogg were the guests of Mr. and Mrs. B. Trimble for the two days of the Olds Fair. While there they attended the Old Timer's Banquet on Friday evening.

A shower was held on Wednesday last in the United Church, Cremona, in honor of Mrs. W. Bandroff (nee Florence Watchhorn). On the same evening a wedding dance was held in the United Church.

Mrs. D. Evans had six visitors over the week end her sister and husband from Seattle, Wash.

FLOWERS WITH THE MOON

The Alaska Highway's "moonstruck well" at Mile 100 continues to baffle science.

For 10 months the well has been flowing true to form under close observation. It goes dry when the new moon appears. Then it begins to gush water slowly day by day until the full moon shines down on the camp when it becomes almost a gusher.

Williams Roland, camp manager, keeps close check on the well, sole source of water for the Blueberry maintenance camp. It was sunk by the United States army engineers in 1942. Large stones were used to give a better outlet for some months. Then it became temperamental and started flowing with the moon.

WORLD HAPPENINGS BRIEFLY TOLD

The British army of the Rhine is hunting with bayonets under instructions—because of the damage the soldiers do to Germany's crops.

No child has been killed on the streets of Norwich, England, since an intensive road safety campaign was begun more than a year ago.

The C.R.E. has been awarded to Col. Julian Taylor, the specialist who fitted 35 men with home-made artificial limbs in a lap prison camp.

Twenty of the 50 delegates elected to the National Assembly assembled last night. 20 women, the lists disclosed. Five women will sit in the assembly with their husbands.

Canadians are estimated to have \$265,000,000 to their credit under the compulsory savings plan which was in effect during the war, the Revenue Department reported.

Canada's net debt as at March 31, 1946, was estimated by Finance Minister Isley in his budget speech at \$130,616,000, an increase of \$15,750,000 at the end of the previous year.

The London Gazette states that Viscount Alexander, Governor-General of Canada, has been retired from the active army at half-pay with rank of field marshal. The retirement took effect last April 6.

To make milk even more attractive to children the British Ministry of Food is to distribute it to schools in solid squares attractively flavored. Ship to shore telephone communication between Great Britain and ocean liners was resumed July 1 after a six-year suspension.

The Farmer's Job

Only Wants A Fair Price For What He Produces

The (farmers) dollar is not finished—hunger is not finished in the world, granaries are being swept clean. Hunger may not be far from our door. But, farmers are not taking advantage of scarcity to force prices to unreasonable limits.

They do want their fair share of the consumer's dollar, which will permit a minimum of living comparable with those working and living in urban centres. This is being sought through organizations of local producers affiliated with country, provincial and Canadian federations of agriculture, and now carried a step further by forming an international body.

By negotiation rather than by strikes or slowdowns producers hope to get a fair price for their products based on cost of production and to avoid such a paralyzing depression as occurred in the thirties when industry suffered also because of the low purchasing power of the farmer.

Farmers' Advocate.

FROM APPETIZER TO DESSERT—Perhaps you've already learned what an important role ready-to-eat cereals can play in today's menus. Cereal is no longer just a breakfast food. These days when flour is scarce, it can play an increasingly important role as flour saver in all types of dishes—from appetizer to dessert.

Use Bran cereal often. It is made from the rich outer layers of grain, which are not used in the milling of white flour. It is readily available and is a popular baking ingredient.

Try these recipes for proof of this cereal's versatility. They're truly delicious. The bran called for helps save flour and stretch meat, and adds zing to rissoles to desserts.

HAM BRAN CAKES—1 pound ground smoked ham, 1 cup ground bran, 1 egg, slightly beaten, 1/2 cup bran, 1/2 cup peach halves.

Combine meat with eggs, cloves, brown sugar, milk and bran. Shape into small cakes, place in shallow baking pan. Bake in moderate oven (375 deg. F.) about 30 minutes. Place peach halves in separate pan and heat in oven during last 10 minutes meat is baking. Serve two ham cakes with each peach half. Yield: 8 servings (each cake 2 1/2 inches in diameter).

Note: Grilled bananas may be substituted for peaches.

X-X-X

PLUM CAKES

1 egg, 1 cup bran, 1/2 cup sweetened plum juice, 1/2 cup evaporated milk, 1/2 cup bran, 1/2 cup peach halves.

Combine meat with eggs, cloves, brown sugar, milk and bran. Add soaked bran alternately with sifted flour and pitted plum in each greased muffin pan and fill 2/3 full with batter. Bake in moderate oven (375 deg. F.) about 25 minutes. Serve hot with Plum Sauce.

Plum Sauce

1 cup sweetened plum juice, 1 tablespoon cornstarch.

Add plum juice gradually to cornstarch, stirring until smooth. Add salt and cook until thick and clear. Stir in lemon juice. Serve hot with Plum Cakes.

DUNDURN CAMP LIFE—Tanned and healthy after ten days in Camp Dundurn, army cadet corps boys, including one blind boy, returned to their homes. Photos above show some of the various phases of camp life. (1) Cadet Lance Corporal Billy Sabourin of Sturgis is shown pole-vaulting. (2) Cups, shields and medals to be presented to the winners. (3) John Baxter of Semiahm is shown clearing the bar in the high jump event. (4) Inspector Cadets by Brig. G. A. H. Trudeau, C.R.E., district officer commanding, military district No. 12. (5) Cup presented to Maj. P. C. Jardine, district cadet officer, military district No. 12 to Cadet Lieut. Boyd Tucker of Star City cadet corps, which corps attained the highest degree of proficiency as a cadet corps for this year. (6) Some like it hot, some like it sweet, and Cadet Lieut.-Col. D. A. Hindley of Moose Jaw satisfies the cadets with his piano.

TED SPENCER passed the dingy brick buildings without a look that trip. He was only a hundred and fifty miles from the office; his order book was fat in his pocket; he had a sales conference in town to attend, and nothing else lay between him and the week-end with Kay and the kids.

He stopped for gas in the village just beyond the prison. While the fellow attendant filled her up, a man who hadn't been leaning against the pump came over slowly. "You going anywhere near Boston?" the man asked.

"Nobody could go much nearer," said Ted churlishly.

"I got a chance for a job up there." He glanced up at Ted, then down again. "I could get there by thirty-thirty."

Ted looked him over. His clothes didn't fit very well. His hands were small and slim like a woman's . . . queer type, Ted thought. Ted didn't like to drive too fast. He had a policy never to take a job, but this was an ordinary, thumb-sucking Seemed pathetic sort of lost. He moved his spangles over. "Hop in."

Once on the paved road he gasped up to sixty, for it was step-on-it if he was to reach town by three-thirty.

"I've been here a year for a year and six years and nothing against him. He had a simple policy: never pulled his eyes off the road while the car was moving, and assumed that everyone who approached him was drunk and a damn fool."

"There's no trouble today," Ted lied complacently, but the silence made him feel queer.

"Clouding over," he said cheerfully.

"You should worry," the man said. "Nice car, good job, and wife and kids. I'm not worried."

"I feel better. What's this job you're after?" he asked.

"Special offer in a department store. Miriam's. Watching for hits," the man said.

Now there was a new one. Ted was always interested in people and jobs, and a sort of training, he thought. Told a passenger she had a man to wonder.

"My name's Spencer," he said, warming to this. "I'd like to hear some more about that job. You've had experience, of course?"

The passenger hesitated, and Ted thought he wasn't going to answer. "Mine's Fisher," he said at last. "It's chap out, you got it in the neck. He

shuts your mind; you get used to the number. Experience? You could call it that."

There was another pause. "Number?" Ted repeated.

The man laughed. "Been doing that. Only a year though."

Ted wished he hadn't been so easy. Well, hell play it through now. "W-w-w-hat for?"

"PICK-MEMPHIS."

Remembering the man's hands, Ted sat hard on his wallet, felt the bulge of his order book. He laughed unhappily. He used to do card tricks and start with a deck of cards.

"Uh-huh. But you stopped there, going to be different with me from now on, though. They got a great guy back there, that warren. He's hard but he's fair. He got me this chance up in Boston. I'm going straight, mister. That's my experience."

Winston S. Churchill

It was given by Mr. Churchill to Mr. Eden when the Coalition Government dissolved.—London Sunday Times.

The dedication would trouble most of the shortest. It is inscribed on the first page of the recently bound edition of "Mr. Churchill's war speeches. It bears the words:

Winston S. Churchill

He is a man who has the gift of inspiring his hearers.

He has a broad new year:

That Allies Supplies gave a tea that

And that Mr. Bailey came to town

And bought a load of wood,

Well, these things are trifles per-

haps, to you and me;

For him they are reminders of the

times that used to be;

And from the many city life glances

To see the town that surrounded

His doings as a boy.

Each nicely printed paragraph upon

Presents a scene familiar, or a friend

And makes us used to meet;

And makes us tell it by the

smile that quickly comes;

There's mention of his mother and

other folks at home.

Men wonder far for fortune and find

it too, and yet,

The farm and little village and its

folks they never forgot,

And there's the city life,

Which greater joy can give,

Than the little country paper, printed

Where we used to live.

—Exchange.

Canadian Literature

Hopes To See Much Good Writing In Canada In The Future

TORONTO.—Internationally famous author and Book of the Month Club judge, Christopher Morley in Toronto said that he noticed a "great tumult and ferment" in Canadian literature and hoped to see much good writing come out of this country in the next few years.

We are disappointed not to see more Canadian writing," he heard, where writer of best-sellers said "Hugh MacLennan's Two Solitudes was one of the first and best, that came out."

Morley said that he was in Canada to see what Canadians are thinking and feeling and that some day he would try to get it into paper.

Author of *Kitty Foyle*, best seller of 1939, Morley thought it was too early to do much writing now. Writing influenced by the war, writing changes slowly and long term cycles play themselves out and the best stories of the war will not be seen for some time.

Home Town Paper

He's getting home from business—he's a merchant, well to do. The wheels of the street car were throwing sparks of blue. And around him were acquaintances, who when they stood or sat, by their manner and gesture, were indicating to a character.

Biff Spitzer ignored all of them, except to bow and smile. When killed by some one of the door, or just across the aisle, he read with boyish eagerness, while the charity printed pages of a little country sheet.

He read of Tom Jones' enterprise in London, of his barn. And learned that Sibon Huddleston has got a brand new year: That Allies Supplies gave a tea that he liked, and that Mr. Bailey came to town and bought a load of wood.

Well, these things are trifles perhaps, to you and me;

For him they are reminders of the

times that used to be;

And from the many city life glances

To see the town that surrounded

His doings as a boy.

Each nicely printed paragraph upon

Presents a scene familiar, or a friend

Will Be Treasured

Anthony Eden Has Autographed Copy Of Churchill's War Speeches

Field Marshal Lord Montgomery has made something like a corner in famous autographs. But all the great commanders and statesmen have signed his copy of "Mr. Churchill's War Speeches" and he is to be full of photographs and books attached to dedicatory and valedictory messages.

The dedication would trouble most of the shortest. It is inscribed on the first page of the recently bound edition of "Mr. Churchill's war speeches.

It bears the words:

Winston S. Churchill

It was given by Mr. Churchill to Mr. Eden when the Coalition Government dissolved.—London Sunday Times.

And Meet Your Friends

The Rugby Local A.F.U. will meet at the home of Jay Tugge on Wednesday, August 28, instead of August 21, as announced last week.

Showery weather has prevailed this week in many parts of Alberta but the Didbury district has only had moderate precipitation compared to heavy rains reported both north and south.

As the result of the draw for surplus grain trucks held in Calgary last week, the local farmers will get 15 new trucks. They are M.D. Crossman and C.P. Hume of Didbury, and M.D. Clark of Bergen.

Mr. and Mrs. Howard Halliday and Mr. and Mrs. Leonard Berschke have returned from a holiday spent by the Pacific coast. They travelled by way of the States and visited the Grand Coulee Dam and other attractions along the way.

Winona Rouleau returned home on Thursday after spending a few days visiting friends in Calgary.

Mr. and Mrs. Geo. Law and family returned Tuesday from a couple of weeks' holiday at Sylvan Lake.

Mr. and Mrs. Chet Bliven and their niece Lola Hood of Payette, Idaho, took a holiday for several days, spending a week at Mrs. Bliven's cousins, the Deardoffs. They were accompanied as far as Banff by Mr. and Mrs. John Deardoff.

Clive Johnson who has been holidaying for the past week at Sylvan Lake with the Phil Andrews family, caught a 4½ lb. Jack fish which measured 30 inches in length.

Mrs. Anne Fitzsimmons of Calgary visited in Didbury last week with her niece, Mrs. Chris Flanagan.

Mr. and Mrs. Kirk and Ralph of Calgary were Sunday visitors at the home of Mr. and Mrs. H. Roberts.

Mr. and Mrs. T.J. Hunter and Red Deer were Sunday visitors at the home of the latter's parents, Mr. and Mrs. A. Morash.

Born to Mr. and Mrs. Art Reiher in the Holy Cross Hospital, on Monday, August 12th, a daughter.
